

PowerTerm® InterConnect macOS Edition

The complete host access solution in one compact, easy-to-use program

PowerTerm InterConnect is the complete legacy host access solution for macOS. As Ericom® Software's flagship host connectivity solution, PowerTerm InterConnect provides secure access to applications residing on a wide range of hosts, including IBM, Digital, Unix, SCO and Data General. PowerTerm InterConnect's extensive host system support enables organizations to standardize on a single host access solution.

Seamless connectivity from Mac to host

The PowerTerm InterConnect terminal emulator maximizes enterprise-wide productivity by enabling reliable access to accounting, inventory management, transaction processing and other mission-critical legacy applications. PowerTerm InterConnect provides seamless connectivity to the widest range of machine types and information systems.

SSH and SSL for secure access

For secure connectivity to host applications, PowerTerm InterConnect supports SSH and SSL/TLS security protocols.

Full line of terminal emulation types on widest range of hosts

PowerTerm InterConnect supports over 35 terminal emulation types. Its lightweight footprint provides a simple, fast and modern means of running legacy applications from a wide range of macOS® operating systems.

PowerTerm InterConnect provides connectivity to applications residing on a variety of hosts over network or direct serial links.

Maximize user efficiency and productivity

PowerTerm InterConnect boasts more features and faster key response than any competing solution.

Features include customizable function keys, Power Script Language, multiple concurrent sessions, history scroll bar, menu bar, scalable and selectable fonts, intelligent copy & paste, advanced printing and file transfer solutions.

This full-featured client ensures fast, reliable connections for sharing information throughout the enterprise, regardless of host type.

PowerTerm InterConnect offers multiple language support: The GUI (including menu and dialog boxes) is available in English, German, French, Spanish and Italian, while the program supports dozens of other languages.

Simple to install

This full featured terminal emulator can be installed on most Mac devices in just minutes.

PowerTerm InterConnect is also available for Windows and Linux operating systems.
